Usage of the unqualified term pound reflects the historical conflation of mass and weight. This accounts for the modern distinguishing terms pound-mass and pound-force. 82a7a8c101 The unit is descended from the Roman libra (hence the symbol lb, descended from the scribal abbreviation, ℔). The English word pound comes from the Roman libra pondo ('the weight measured in libra'), and is cognate with, among others, German Pfund, Dutch pond, and Swedish pund. These units remain in common use in many territories especially those which have not fully adopted the metric system. 82a7a8c101 Liber OZ is divided into five paragraphs, each addressing different aspects of human rights: moral, bodily, mental, sexual, and the right to safeguard freedoms, including the controversial assertion of the right to commit tyrannicide. It is one of the last and shortest of the books known as the Libri of Aleister Crowley. 82a7a8c101
