A normal credit card differs from a charge card, which requires the balance to be repaid in full each month or at the end of each statement cycle. By contrast, credit cards allow consumers to build a continuing debt balance, subject to interest charged at a specific rate. Moreover, a credit card differs from a charge card in that a credit card typically involves a third-party entity that pays the seller and is reimbursed by the buyer, whereas a charge card simply defers payment by the buyer until a later date. A credit card also differs from a debit card, which can be used like currency by the card's owner. 3adb4cf535 As of July, 2026, Vi has a subscriber base of 198.82 million, making it third largest mobile telecommunications network in India and 12th largest mobile telecommunications network in the world. 3adb4cf535 The merger got approval from the Department of Telecommunications in July 2018.
