

Words With A On The End

== Writing == The Words of the Year usually reflect events that happened during the years the lists were published. For example, the Word of the Year for 2005, 'integrity', showed that the general public had an immense interest in defining this word amid ethics scandals in the United States government, corporations, and sports. The Word of the Year for 2004, 'blog', was looked up on the Online Dictionary the most as blogs began to influence mainstream media. In 2006, Merriam-Webster received a lot of publicity as 'truthiness', a word coined by Stephen Colbert on The Colbert Report, topped the list.

It is followed by the secondary slogan:

List of last words (People dying of illness are frequently inarticulate at the end, and in such cases their actual last utterances may not be recorded or considered very important.) Last words may be recorded accurately, or, for a

variety of reasons, may not. A person's last words, their final articulated words stated prior to death or as death approaches, are often recorded because of the decedent's fame, but A person's last words, their final articulated words stated prior to death or as death approaches, are often recorded because of the decedent's fame, but sometimes because of interest in the statement itself. Reasons can include simple error or deliberate intent. Even if reported wrongly, putative last words can constitute an important part of the perceived historical records or demonstration of cultural attitudes toward death at the time

The song is an acoustic ballad in which the singer wants his lover to do more than simply saying "I love you" to demonstrate her love for him. Bettencourt described it as a warning that the phrase was becoming meaningless: "People use it so easily and so lightly that they think you can say that and fix everything, or you can say that and everything's OK.... There are additional uses for the suffix, such as to describe a subject rather than the study of it (e.g., duology). The suffix is often humorously appended to other English words to create nonce words. For example, stupidology would refer to the study of stupidity; beerology would refer to the study of beer. Content == The primary slogan in the Fourteen Words is: Cultural traditions around the world ascribe special significance to words uttered at or near death, but the form and content of reported last words may... English names for fields of study are usually created by taking a root (the subject of the study) and appending the suffix logy to it with the interconsonantal o placed in between (with an exception explained below). For example, the word dermatology comes from the root dermat- plus logy. Sometimes, an excrescence, the addition of a consonant, must be added to avoid poor construction of words. Background and writing == Charles Darwin, for example, was reported to have disavowed his theory of evolution in favor of traditional religious faith at his death. This widely disseminated report served the interests of those who opposed Darwin's theory on religious grounds. However, the putative witness had not been at Darwin's deathbed or seen him at any time near the end of his life.

List of words with the suffix -ology The ology ending is a combination of the letter o plus logy in which the letter o is

used as an interconsonantal letter which, for phonological reasons, precedes the morpheme suffix *logy*. This list of words contains all words that end in *ology*. In addition The suffix *-ology* is commonly used in the English language to denote a field of study. *Logy* is a suffix in the English language, used with words originally adapted from Ancient Greek ending in *-λογία* (*-logia*). For example, one who studies biology is called a biologist. would be replaced with *ologist*
