

Can Alcohol Cause Diarrhoea

== Medical uses == 8665fae192 Gastroenteritis is usually caused by viruses; however, gut bacteria, parasites, and fungi can also cause gastroenteritis. In children, rotavirus is the most common cause of severe disease. In adults, norovirus and Campylobacter are common causes. Eating improperly prepared food, drinking contaminated water, or having close contact with an infected person can spread the disease. Treatment is generally the same with or without a definitive diagnosis, so testing to confirm is usually not needed. 8665fae192

Diarrhea It often lasts for a few days and can result in dehydration due to fluid loss. Diarrhea (American English), also spelled diarrhoea (British English), is the condition of having at least three loose, liquid, or watery bowel movements Diarrhea (American English), also spelled diarrhoea (British English), is the condition of having at least three loose, liquid, or watery bowel movements in a day. This can progress to decreased urination, loss of skin color, a fast heart rate, and a decrease in responsiveness as it becomes more severe. Signs of dehydration often begin with loss of the normal stretchiness of the skin and irritable behaviour. Loose but non-watery stools in babies who are exclusively breastfed, however, are normal 8665fae192

Trimethoprim was first used in 1962. It is on the World Health Organization's List of Essential Medicines. It is available as a generic medication. 8665fae192

Pentoxifylline (seen in more than 1% of patients) are upper abdominal (belly) pain, diarrhoea, dry mouth, and nausea or vomiting. Allergic reactions of the skin like 8665fae192

== Oral disease == 8665fae192

Hand washing water are unavailable, hand sanitizer that is at least 60% (v/v) alcohol in water can be used as long as hands are not visibly excessively dirty or greasy 8665fae192

Trimethoprim With sulfamethoxazole or dapsone it may be used for Pneumocystis pneumonia in people with HIV/AIDS. It is taken orally (swallowed by mouth). Vomiting Diarrhoea Rashes Sun sensitivity Itchiness Can cause thrombocytopenia (low levels of platelets) by lowering folic acid levels; this may also cause megaloblastic Trimethoprim (TMP) is an antibiotic used mainly in the treatment of bladder infections. Other uses include for middle ear infections and travellers' diarrhoea 8665fae192

For young children in impoverished countries, prevention includes hand washing with soap, drinking clean water, breastfeeding babies instead of using formula, and proper disposal of human waste. The rotavirus vaccine is recommended as a prevention for children. Treatment involves getting enough... 8665fae192

Gastrointestinal disease Diseases of the intestine may cause vomiting, diarrhoea or constipation, and altered stool, such as with blood in stool. Gastrointestinal diseases (abbrev. GI diseases or GI illnesses) refer to diseases involving the gastrointestinal tract, namely the esophagus, stomach, small intestine, large intestine and rectum; and the accessory organs of digestion, the liver, gallbladder, and pancreas. and necrotizing enterocolitis 8665fae192

Cilansetron 14 (2): 185–93. Expert Opinion on Investigational Drugs. doi:10. "Cilansetron: a new serotonergic agent for the irritable bowel syndrome with diarrhoea". 1517/13543784 8665fae192

Common side effects include nausea, changes in taste, and rash. Rarely it may result in blood problems such as not enough platelets or white blood cells. Trimethoprim may cause sun sensitivity. There is evidence of potential harm during pregnancy in some animals but not humans. It works by blocking folate metabolism via dihydrofolate reductase in some bacteria, preventing creation of bacterial DNA and RNA and leading to bacterial cell death. 8665fae192 The most common cause is an infection of the intestines due to a virus, bacterium, or parasite—a condition also known as gastroenteritis. These infections are often acquired from food or water that has been contaminated by feces, or directly from another person who is infected. The three types of diarrhea are: short duration watery diarrhea, short duration bloody diarrhea, and persistent diarrhea (lasting more than two weeks, which can be either watery or bloody). The short duration watery diarrhea may be due to cholera, although this is rare in the developed world. If blood is present, it is also known as dysentery... 8665fae192

Colestyramine Alimentary Pharmacology & Therapeutics. J, Green J (May 2014). "Systematic review: the management of chronic diarrhoea due to bile acid malabsorption" 8665fae192

Breastfeeding difficulties Sudden. per day) has been shown to reduce the mother's milk supply and cause vomiting, diarrhoea, rapid heart rate, and restlessness in breastfed infants 8665fae192

It is primarily used in the treatment of urinary tract infections, although it may be used against any susceptible aerobic bacterial species. It may also be used to treat and prevent Pneumocystis jirovecii pneumonia. It is generally not recommended for the

treatment of anaerobic infections... 8665fae192

Health in Bangladesh 1%, injury 7. major causes of under-5 child mortality were preterm birth 18%, intrapartum 13. 8%, pneumonia 13. 5%, sepsis 11%, congenital 9. 9%, diarrhoea 7 8665fae192

Gastroenteritis Fever, lack of energy, and dehydration may also occur. Although it is not related to influenza, in Canada and the United States it is often referred to as "stomach flu". This typically lasts less than two weeks. Diarrhoea and Vomiting Caused by Gastroenteritis: Diagnosis, Assessment and Management in Gastroenteritis, also known as infectious diarrhea, is an inflammation of the gastrointestinal tract including the stomach and intestine. Wikimedia Commons has media related to Gastroenteritis. Symptoms may include diarrhea, vomiting, and abdominal pain 8665fae192
