

Information Technologies And Communication

Ministry of Information and Communication Technology Ministry of Information and Communication Technology or Communications Technology may refer to: Ministry of Information and Communications Technology (Colombia) Ministry of Information and Communication Technology or Communications Technology may refer to: ffdaa50afe

ICT is also used to refer to the convergence of audiovisuals and telephone networks with computer networks through a single cabling or link system. There are large economic incentives to merge the telephone networks with the computer network system using a single unified system of cabling, signal distribution, and management. ICT is an umbrella term that includes any communication device, encompassing radio, television, cell phones, computer and network hardware, satellite systems and so on, as well as the various services with them such as video conferencing and distance learning. ICT also includes analog technology, such as paper communication, and any mode that transmits communication. ffdaa50afe Ministry of Information and Communications Technology (Iran) ffdaa50afe Ministry of Information, Communications & Technology (Eswatini) ffdaa50afe The Telecommunications Authority was established by means of the Law 4502, dated 29 January 2000. This Law addressed the responsibilities of the Ministry of Transport, among others, and "separated policy-making and regulatory functions of the government by establishing an independent telecommunications regulatory body, the Telecommunications Authority, as the first sector specific regulator in Turkey. As a result, regulatory functions of the Ministry of Transport were transferred to the Authority in principle, and the General Directorate of Radiocommunication, a government body in charge of radio frequency management under the Wireless Law (Law 2813, 7 April 1983), was abolished and all of its functions were transferred to the Telecommunications Authority." ffdaa50afe There are different names for this at different periods or through fields. Some of these names are: ffdaa50afe ICTA was established on 12 May 2003 under the Information and Communication Technology Act, No. 27 of 2003, and strengthened by the ICT Amendment Act No. 33 of 2008. ICTA is functioning under the Ministry of Technology. The main thrust of ICTA is to set ICT policy as well as... ffdaa50afe

Information and communications technology The money spent Information and communications technology (ICT) is an extensional term for information technology (IT) that stresses the role of unified communications and the integration of telecommunications (telephone lines and wireless signals) and computers, as well as necessary enterprise software, middleware, storage and audiovisual, that enable users to access, store, transmit, understand and manipulate information. On 5 November 2008 the Turkish legislature enacted... The ICTA is a consolidation of three previously separate government agencies; the Information and Communication Technology Board of Kenya (ICT Board), the e-Government Directorate and the Government Information and Technology Services (GITS). Following the 2001 general election, the Ministry of Science and Technology (Bangladesh) was renamed on 18 September 2002 to become the Ministry of Science and Information & Communication Technology. To give more thrust for ICT sector the Information & Communication Technology Division was separated from Science and Technology ministry and it has upgraded as Ministry of Information & Communication Technology on 4 December 2011. The change is the evidence of understanding of the importance of ICT from the highest policy level and also an indication that the government is keen to keep pace with modern changing world. After 2014 election Ministry of Posts and Telecommunications and Ministry of ICT are integrated to Ministry of Posts, Telecommunications and Information Technology...

Information and Communication Technology Authority The Information and Communication Technology Authority is a Kenyan Government Owned Corporation tasked with rationalising and streamlining the management The Information and Communication Technology Authority is a Kenyan Government Owned Corporation tasked with rationalising and streamlining the management of all the Information and Communication Technology (ICT) functions of the Government of Kenya.
