

Other Term For Strategy

== Typical experience ==

Strategy , the term came into use in the 6th century C. From then until the 20th century, the word "strategy" came to denote "a comprehensive way to try to pursue political ends, including the threat or actual use of force, in a dialectic of wills" in a military conflict, in which both adversaries interact. in Eastern Roman terminology, and was translated into Western vernacular languages only in the 18th century. In the sense of the "art of the general", which included several subsets of skills including military tactics, siegecraft, logistics etc. E. Strategy (from Greek στρατηγία stratēgia, "troop leadership; office of general, command, generalship") is a general plan to achieve one or more long-term Strategy (from Greek στρατηγία stratēgia, "troop leadership; office of general, command, generalship") is a general plan to achieve one or more long-term or overall goals under conditions of uncertainty

Technology strategy The strategy can be implied from the organization's behaviors towards technology decisions, and may be written down in a document. objectives. Such strategies primarily focus on the technologies themselves and in some cases the people who directly manage those technologies. Other generations of technology-related strategies primarily focus on: the efficiency of the company's spending on technology; how people, for example Technology strategy (information technology strategy or IT strategy) is the overall plan which consists of objectives, principles and tactics relating to use of technologies within a particular organization. The strategy includes the formal vision that guides the acquisition, allocation, and management of IT resources so it can help fulfill the organizational objectives

The term strategy is typically used to mean a complete algorithm for playing a game, telling a player what to do for every possible situation. A player's strategy determines the action the player will take at any stage of the game. However, the idea of a strategy is often confused or conflated with that of a move or action, because of the correspondence between moves and pure strategies in most games: for any move X, "always play move X" is an example of a valid strategy, and as a result every move can also be considered to be a strategy. Other authors treat strategies as being a different type of thing from actions, and therefore distinct.

Fabian strategy While avoiding decisive battles, the side employing this strategy harasses its enemy through skirmishes to cause attrition, disrupt supply and affect morale. It may also be adopted when no feasible alternative strategy can be devised. be adopted when no feasible alternative strategy can be devised. Employment of this strategy implies that the side adopting this strategy believes time is on its side, usually because the side employing the strategy is fighting in, or close to, their homeland and the enemy is far from home and by necessity has long and costly supply lines. By extension, the term is also applied to other situations in which a large, ambitious The Fabian strategy is a military strategy where pitched battles and frontal assaults are avoided in favor of wearing down an opponent through a war of attrition and misdirection

A player must plan a series of actions against one or more opponents, and the reduction of enemy forces is usually a goal. Victory is achieved through superior planning, and the element of chance takes a smaller role. In most strategy video games, the player is given a godlike view of the game world, and indirectly controls game units under their command. Thus, most strategy games involve elements of warfare to varying degrees... It is helpful to think about a "strategy" as a list of directions, and a "move" as a single turn on the list of directions itself. This strategy... In contrast to strategy, grand strategy encompasses more than military means (such as diplomatic and economic means); does not equate success with purely military victory but also the pursuit of peacetime goals and prosperity; and considers goals and interests in the long-term rather than short-term.

Military strategy strategy is a set of ideas implemented by military organizations to pursue desired strategic goals. Derived from the Greek word strategos, the term strategy

The term trading strategy can in brief be used by any fixed plan of trading a financial instrument, but the general use of the term is within computer... == Types of trading strategies == Strategy video games are commonly divided into two main forms: turn-based strategy (TBS), in which players act in discrete turns, and real-time strategy (RTS), in which gameplay proceeds continuously. Many also incorporate elements such as tactics, diplomacy, economics, or exploration. The difference between short trading and long-term investing is in the opposite approach and principles. Going short trading would mean to research and pick stocks for future fast trading activity on one's accounts with a rather speculative attitude. Low turnover, principles of

time-tested investment approaches, returns with risk-adjusted actions, and diversification are the key features of investing in a long-term manner. e7ea761b17

Strategy of tension Other cases where writers have alleged a strategy of tension include. this is disputed by other historians and denied by the intelligence agencies involved e7ea761b17

Strategy is important because the resources available to achieve goals are usually limited. Strategy generally involves setting goals and priorities, determining the actions needed to achieve the goals, and mobilizing resources to execute those actions. A strategy describes how the ends (goals) will be achieved by the means (resources). Strategy can be intended or can emerge as a pattern of activity as the organization adapts to its environment... e7ea761b17 Much scholarship on grand strategy focuses on... e7ea761b17 In contrast to foreign policy, grand strategy emphasizes the military implications of policy; considers costs benefits of policies, as well as limits on capabilities; establishes priorities; and sets out a practical plan rather than a set of ambitions and wishes. A country's political leadership typically directs grand strategy with input from the most senior military officials. Development of a nation's grand strategy may extend across many years or even multiple generations. e7ea761b17 == Rome versus Carthage: The Second Punic War == e7ea761b17

Trading strategy For every trading strategy one needs to define assets to trade, entry/exit points In finance, a trading strategy is a fixed plan that is designed to achieve a profitable return by going long or short in markets. diversification are the key features of investing in a long-term manner e7ea761b17
