Nudity While estimates vary, for the first 90,000 years of pre-history, anatomically modern humans were naked, having lost their body hair, living in hospitable climates, and not having developed the crafts needed to make clothing. Frankfurter Allgemeine Zeitung Nudity is the state of being in which a human is without clothing. "Bekleidung in der Sauna: Was haben Sie denn an. As humans became behaviorally modern, body adornments such as jewelry, tattoos, body paint and scarification became part of non-verbal communications, indicating a person's social and individual characteristics. " [Clothing in the Sauna: What are you wearing]. Indigenous peoples in warm climates used clothing for decorative, symbolic or ceremonial purposes but were often nude, having neither the need to protect the body from the elements nor any conception of nakedness being shameful. Research studies show that the importance attached to physical appearance decreases with age. Across these disciplines, there is no single consensus definition, but broadly speaking, body image consists of the ways

people view themselves; their memories, experiences, assumptions, and comparisons about their appearances; and their overall attitudes towards their respective appearances (including but not limited to their skin tone, height and weight) all of which are shaped by prevalent social and cultural ideals. The concept of body image is used in several disciplines, including neuroscience, psychology, medicine, psychiatry, psychoanalysis, philosophy, cultural and feminist studies; the media also often uses the term
