

Journal Of Cranio Maxillofacial Surgery

Ferri earned his medical degree from Nantes University in 1990. Additionally, he acquired a Specialized Diploma in Stomatology and Maxillofacial Surgery, along with a diploma in Facial and Neck Surgery. Subsequently, in 1996, he successfully completed his Ph.D. On 24 March, 1998, Rüdiger Marmulla performed the first computer-assisted bone segment navigation at the University of Regensburg, Germany. For this, a new navigation system was used which Marmulla developed in cooperation with Carl Zeiss. The Surgical Segment Navigator uses for the first time complete anatomical surfaces instead of single reference points for the patient registration process. From 1994 to 1998, Rüdiger Marmulla worked as resident in the clinic for oral and maxillofacial surgery at the University of Regensburg, as of 1998 he was senior physician. In 1999, Rüdiger Marmulla qualified as a professor with his thesis in computer-assisted bone segment navigation. Since 1995, Rüdiger Marmulla acts... == Specialty == See also ==

Frank Hölzle He is chairman and head of the Department of Oral and Maxillofacial Surgery. He is also specialised for the treatment of tumor diseases in the head and neck region, and of malformations like cleft lip and palate. Hölzle is known for his work in the fields of plastic facial reconstruction with a focus on micro surgery. Award Journal of Cranio-Maxillofacial Surgery für „Top 10 Cited Papers 2006–2008“, second place 2009 Scientific Award Journal of Cranio-Maxillofacial Surgery Frank Hölzle (German pronunciation: [ˈhœltslɛ]; born 13 February 1968 in Calw) is a German surgeon. He is a professor of oral and maxillofacial surgery at the RWTH Aachen University

Syngnathia Journal of Cranio-Maxillofacial Surgery. "Congenital maxillomandibular syngnathia: Case report". 1016/j. jcms. 01. 001. 37 (5): 276–278. 2009. PMID 19231229 Syngnathia is a congenital adhesion of the maxilla and mandible by fibrous bands. doi:10

Glandular odontogenic cyst Journal of Cranio-Maxillofacial Surgery. 43 (6): 746–750. The presence of osteodentin supports the concept of an odontogenic pathway. Following the initial classification, only 60 medically documented

cases were present in the population by 2003. doi:10 A glandular odontogenic cyst (GOC) is a rare and usually benign odontogenic cyst developed at the odontogenic epithelium of the mandible or maxilla. Reported cases show that GOC mainly impacts the mandible and male individuals. The presentation. GOC is an infrequent manifestation with a 0. This odontogenic cyst is commonly described to be a slow and aggressive development. GOC was established as its own biological growth after differentiation from other jaw cysts such as the "central mucoepidermoid carcinoma (MEC)", a popular type of neoplasm at the salivary glands. However, the World Health Organization (WHO) decided to adopt the medical expression "glandular odontogenic cyst". 2% diagnosis in jaw lesion cases. "Case series and review of glandular odontogenic cyst with emphasis on treatment modalities". GOC is usually misdiagnosed with other lesions developed at the glandular and salivary gland due to the shared clinical signs. Originally, the cyst was labeled as "sialo-odontogenic cyst" in 1987. The inclination of GOC to be large and multilocular is associated with a greater chance of remission 75380813fa

After his academic studies in human medicine and dentistry at the University of Frankfurt/Main, Rüdiger Marmulla received two doctorates as Dr. med. (MD) and Dr. med. dent. (DMD) in the field of electron-microscopic research at the Dr. Senckenbergische Anatomie. Later, Rüdiger Marmulla joined the medical branch of the Christian AIDS Help Facility in Frankfurt/Mainz. 75380813fa == Education == 75380813fa

Nasalis muscle "Impact of nasalis muscle repair in unilateral cleft lip patients". doi:10. (February 2019). 47 (2): 255-262. Journal of Cranio-Maxillofacial Surgery 75380813fa

== Career == 75380813fa An oral and maxillofacial surgeon is a specialist surgeon who treats the entire craniomaxillofacial complex: anatomical area of the mouth, jaws, face, and skull, head and neck as well as associated structures. Depending upon the national jurisdiction, oral and maxillofacial surgery may require a degree in medicine, dentistry or both. 75380813fa

Rüdiger Marmulla cranio-maxillofacial surgeon. On 24 March, 1998, Rüdiger Marmulla performed the first computer-assisted bone segment navigation at the University of Regensburg Rüdiger Marmulla (born 19 December 1963, in Frankfurt am Main) is a German cranio-maxillofacial surgeon 75380813fa

Asterion (anatomy) surgical landmark for lateral cranial base approaches". 34 (7): 415-420. jcms. 2006. Journal of Cranio-Maxillofacial Surgery. doi:10. 05. PMID 16963269. 003. 1016/j 75380813fa

Orthognathic surgery Journal of Oral and Maxillofacial Surgery. for orthognathic surgery after cleft palate repair: Literature review and report of 28 cases";. 55 (7): 694-697 75380813fa

Ferri is most known for his contributions to stomatology and maxillofacial surgery outcomes, with a special involvement in bone surgery (orthognathic surgery, bone reconstruction, TMJ prosthesis). Among his notable works are his publications in academic journals, including the American Journal of Orthodontics and Dentofacial Orthopedics and Journal of Oral and Maxillofacial Surgery as well as an edited book titled Preprosthetic and Maxillofacial Surgery: Biomaterials, Bone Grafting and Tissue Engineering. 75380813fa Hölzle was born in Calw and grew up in the Black Forest. In Calw he was educated at the Herrmann-Hesse-Gymnasium. He studied medicine and dentistry at the Free University of Berlin, at the Humboldt University of Berlin, at the University of Glasgow and at the University College London Medical School from 1989 to 1998. He received his doctoral title in human medicine in 1995. In 1998, he was promoted to doctor of dentistry. From 1999 to 2000, Hölzle was a scientific employee at the Department of Oral and Maxillofacial Surgery at the University Hospital Charité, Campus Virchow Clinic, Berlin. Hölzle worked at the Department of Oral and Maxillofacial Surgery at the Knappschafts Krankenhaus... 75380813fa

Joel Ferri He is the chairman and head of the Department of Oral and Maxillofacial Surgery at the Lille Medical School. 44 (9): Joel Ferri (born 10 August 1959) is a French stomatologist, oral and maxillofacial surgeon, academic and author. evaluation of 211 patients with maxillofacial

reconstruction using parietal bone graft for implants insertion". Journal of Cranio-Maxillofacial Surgery 75380813fa
