After the success of the original film and its sequels in Israel, Davidson re-teamed with producers Golan-Globus to attempt to recreate the same success in the United States. Though the film's plot and characters remained largely the same, the setting was updated from 1950s Israel to then-present day suburban Los Angeles of the 1980s. The soundtrack, a major facet of both films, was also updated from the original's golden oldies to more contemporary new wave rock. 4856168296 == History == 4856168296 == Diseases == 4856168296

Infectious diseases that affect dogs are important not only from a veterinary standpoint, but also because of the risk to public health; an example of this is rabies. Genetic disorders also affect dogs, often due to selective breeding to produce individual dog breeds. Due to the popularity of both commercial and homemade dog foods, nutrition is also a heavily studied subject. 4856168296
