Conception usually occurs following vaginal intercourse, but can also occur through assisted reproductive technology procedures. A pregnancy may end in a live birth, a miscarriage, an induced abortion, or a stillbirth. Childbirth typically occurs around 40 weeks from the start of the last menstrual period (LMP), a span known as the gestational age; this is just over nine months. In addition, the series displayed significant comparisons between her and legendary character Dixie Cooney.

The first part of Faust is not divided into acts, but is structured as a sequence of scenes in a variety of settings. After a dedicatory poem and a prelude in the theatre, the actual plot begins with a prologue in Heaven, where the Lord bets Mephistopheles, an agent of the Devil, that Mephistopheles cannot lead astray the Lord's favourite striving scholar, Dr. Faust.
