

What Does Hallucinogens Make The User Do

Psychedelic drug Also referred to as classic hallucinogens or serotonergic hallucinogens, the term psychedelic is sometimes used more broadly to include various other types of hallucinogens as well, such as those which are atypical or adjacent to psychedelia like ketamine and MDMA, respectively. They are widely illegal to sell, possess, or to prescribe; but are nevertheless part of the global illegal drug trade. classic hallucinogens or serotonergic hallucinogens, the term psychedelic is sometimes used more broadly to include various other types of hallucinogens as Psychedelics are a subclass of hallucinogenic drugs whose primary effect is to trigger non-ordinary mental states (known as psychedelic experiences or "trips") and a perceived "expansion of consciousness" 3d0140136c

Classic psychedelics generally cause specific psychological, visual, and auditory changes, and oftentimes a substantially altered state of consciousness. They have had the largest influence on the science and culture of hallucinogens, and include mescaline, LSD, psilocybin, and DMT. There are a large number of both naturally occurring and synthetic serotonergic psychedelics. 3d0140136c

Psychedelic replication However, replications can also be made of the sensory effects of other hallucinogens, such as salvia, deliriants, and dissociatives like ketamine. dimethyltryptamine (DMT) 3d0140136c

Urban legends about drugs This. propagated by drug users themselves. In reality, most hallucinogens cause some degree of mental or physical discomfort after the "trip" is over 3d0140136c

Salvia divinorum about a video that depicts a salvia user behind the wheel of a car. "What we really worry about, is youngsters doing this and then getting in a vehicle 3d0140136c

Most psychedelic drugs fall into one of the three families of chemical compounds: tryptamines, phenethylamines, or lysergamides. They produce their psychedelic effects by binding to and activating a receptor in the brain... 3d0140136c

Deliriant agents/hallucinogens should be more accurately referred to as antimuscarinics, as for instance these agents do not generally block nicotinic receptors. The hallucinogenic 3d0140136c
