Invisible hand More famously, it is also used once in his Wealth of Nations, when arguing that governments do not normally need to force international traders to invest in

their own home country. In both cases, Adam Smith speaks of an invisible hand, never of the invisible hand. Econ Journal Watch 6(3): 374–388. Kennedy, Gavin. Smith originally mentioned the term in two specific, but different, economic examples. "A Reply to Daniel Klein on Adam Smith and the Invisible Hand". It is used once in his Theory of Moral Sentiments when discussing a hypothetical example of wealth being concentrated in the hands of one person, who wastes his wealth, but thereby employs others. Econ Journal Watch 6(2): 264–279. The invisible hand is a metaphor inspired by the Scottish economist and moral philosopher Adam Smith that describes the incentives which free markets sometimes create for self-interested people to accidentally act in the public interest, even when this is not something they intended
