Cartography of the United States The National Program for Topographic Mapping was initiated in 1884 by the United States Geological Survey (USGS). Maps of the New World had been produced since The cartography of the United States is the history of surveying and creation of maps of the United States. The history of cartography of the United States began in the 18th century, after the declared independence of the original Thirteen Colonies on July 4, 1776, during the American Revolutionary War (1776–1783). Later, Samuel Augustus Mitchell published a map of the United States in 1850. The cartography of the United States is the history of surveying and creation of maps of the United States. Maps of the New World had been produced since the 16th century 790d88890a

Beginning in the 118th Congress, California sends 52 individuals to the United States House of Representatives, down from the previous 53 due to reapportionment following the 2020 census. This is the first time the number of Representatives from California has declined in American history. 790d88890a == Overview == 790d88890a
