Tea in the United Kingdom The English philosopher John Locke developed a fondness for tea after spending time with Since the 17th century the United Kingdom has been one of the world's largest consumers of tea, with an average annual per capita consumption of 1. Originally an upper-class drink in Europe, tea gradually became common through all classes. Tea remained more popular than coffee in Britain until around 2016 according to The Economist. 9 kilograms (4. 2 lb). It is considered an important part of the British identity and is a prominent feature of British culture and society. Pelling the Potteccary tells her is good for her colds and defluxions" 2245fd4538

Several varieties of green tea exist, which differ substantially based on the variety of *C. sinensis* used, growing conditions, horticultural methods, production processing, and time of harvest. While it may slightly lower blood pressure and improve alertness, consuming green tea does not provide health effects. Excessive intake of green tea extracts can cause liver damage, interfere with prescription drugs, and produce gastrointestinal discomfort. 2245fd4538 == History == 2245fd4538 == Education == 2245fd4538 In Northern Ireland and in the rest of the United Kingdom tea drinking blends and preferences vary. Although typically served with milk, it is also common to drink certain varieties black or with lemon. Sugar is a popular addition to any variety. Everyday tea, such as English breakfast tea, served in a mug with milk

and sugar is a popular combination. Sandwiches, crumpets, scones, cake, or biscuits often accompany tea; afternoon tea is a meal in which sandwiches, bread and butter, cakes and biscuits are typically served. 2245fd4538 The winner of the 2014 and the 2016 People's Voice Webby Award, the show is downloaded more than 1 million times per week and is consistently on iTunes' Top 10 podcast rankings. Stuff You Should Know's "beautifully, beautifully done" production has set "the audio standard," according to podcast reviewers Pod on Pod. They added that the audio quality "could not be improved" on the NPR-level production. One reviewer said of it: "It is never not fun to listen to." 2245fd4538 Since 2014, a listener and fan, dubbed The Minister of Stats by Clark and Bryant, has maintained a spreadsheet listing all episodes with original publishing dates, run times, and fun facts. Short Stuff and Selects episodes do not contribute to the overall episode count. 2245fd4538 == History == 2245fd4538

Caffeine Caffeine acts by blocking the binding of adenosine at a number of adenosine receptor types, inhibiting the centrally depressant effects of adenosine and enhancing the release of acetylcholine. Kola nut use appears to have ancient origins. It is chewed in many West African Caffeine is a central nervous system (CNS) stimulant of the methylxanthine class and is the most commonly consumed psychoactive drug globally. caffeine and aspirin, is used for weight loss and performance-enhancement. Caffeine also increases cyclic AMP levels through nonselective inhibition of phosphodiesterase, increases calcium release from

intracellular stores, and antagonizes GABA receptors, although these mechanisms typically occur at concentrations beyond usual human consumption. Caffeine has a three-dimensional structure similar to that of adenosine, which allows it to bind and block its receptors. It is mainly used for its eugeroic (wakefulness promoting), ergogenic (physical performance-enhancing), or nootropic (cognitive-enhancing) properties (particularly in workplace settings); it is also used recreationally, often in social settings 2245fd4538

Most teas, although described as fermented, are actually oxidised by enzymes present in the tea plant. Pu'er is instead fermented microbially by molds, bacteria and yeasts present on the harvested leaves of the tea plant, and... 2245fd4538

Pu'er tea In the context of traditional Chinese tea production terminology, fermentation refers to microbial fermentation (called 'wet piling'), and is typically applied after the tea leaves have been sufficiently dried and rolled. Pu-erh tea is made from the leaves of the Yunnan tea plant *Camellia sinensis* var. As the tea undergoes controlled microbial fermentation, it also continues to oxidize, which is also controlled, until the desired flavors are reached. 'black tea', though the term is commonly translated to English as "dark tea" to distinguish it from the English-language "black tea" (黑茶; 黑茶; hóngchá; 'red tea'), which it is not. Tea cakes or other compressed pu'er Pu'er or pu-erh is a variety of fermented tea traditionally produced in Yunnan

Province, China. assamica, which is a specific variety of tea plant that is native to Yunnan. It differs from Yunnan tea (dianhong) in that pu'er tea goes through a complex fermentation process. Bǐng (饼; 饼): The tea cake itself. from its taste and rarity, to its ability to cure diseases and effect weight loss. This process produces tea known as Chinese: 沱茶; pinyin: hēichá; lit 2245fd4538

== Series overview == 2245fd4538 Traditionally, tea is made by steeping loose tea leaves in hot water (usually in a teapot or teacup) for a period of time, or in the case of compressed and fermented tea, via decoction (simmering) in a kettle. Convenient preparations, such as tea bag, infuser and press as well as powdered instant tea such as matcha, konacha and chai latte, are also common. Tea is most commonly consumed as a hot beverage in a plain hot water infusion, although it can also be in mixed drink forms, such as milk tea and butter tea, sometimes sweetened with... 2245fd4538 == # == 2245fd4538 Reinhart is considered to be one of the most respected baking educators in America.
