== December 1962 == d6691a488c When it is winter in the Northern Hemisphere, it is summer in the Southern Hemisphere, and vice versa. Winter typically brings precipitation that, depending on a region's climate, is mainly rain or snow. The moment of winter solstice is when the Sun's elevation with respect to the North or South Pole is at its most negative value; that is, the Sun is at its farthest below the horizon as measured from the pole. The day on which this occurs has the shortest day and the longest night, with day length increasing and night length decreasing as the season progresses after the solstice. d6691a488c

Most were held between the early 17th and early 19th centuries during the period known as the Little Ice Age, when the river froze over most often, though still infrequently. During that time the British winter was more severe than it is now, and the river was wider and slower, further impeded by the 19 piers of the medieval Old London Bridge which were removed in 1831 d6691a488c

Even at its peak, in the mid-17th century, the Thames in London froze less often than modern legend sometimes suggests, never exceeding about one year in ten except for four winters between 1649 and 1666. From 1400 until the removal of the medieval London Bridge in 1831, there were 24 winters in which the Thames was recorded to have frozen over at London. The Thames freezes over more often upstream, beyond the reach of the tide, especially above the weirs, of which Teddington Lock is the lowest. The last great freeze of the higher Thames was in 1962–63. d6691a488c Winter was born to John Winter II and Edwina Winter on December 28, 1946, in Beaumont, Texas. == Early life == Beginning on 23 January 1947, the UK experienced several cold spells that brought large drifts of snow to the country, blocking roads and railways, which caused problems transporting coal to the electric power stations. Many had to shut down, forcing severe restrictions to cut power consumption, including restricting domestic electricity to nineteen hours per day and cutting some industrial supplies completely. In addition, radio broadcasts were limited, television services were suspended, some magazines were ordered to stop publishing, and newspapers were reduced in size. These measures, on top of the low temperatures, badly affected public morale and the Minister of... and the river reverted to its natural state.
