The project was first proposed in February 2003 by Mills Corporation as the Meadowlands Xanadu, with construction beginning in September 2004. The company's previous proposal on a separate site, Meadowlands Mills, was never developed due to legal oppositions regarding environmental concerns. In January 2007, the project was taken over by Colony Capital Acquisitions LLC after Mills started financially struggling and began an acquisition by Simon Property Group and Farallon Capital Management. In May 2009, construction stalled due to the bankruptcy of Lehman Brothers. Triple Five Group announced intent to take over the mall in May 2011, and on July 31, 2013, officially gained control of the mall and the surrounding site. History

The content and function of dreams have been topics of scientific, philosophical and religious interest throughout recorded history. Dream interpretation, practiced by the Babylonians in the third millennium BCE and even earlier by the ancient Sumerians, figures prominently in religious texts in several traditions, and has played a lead role in psychotherapy. Dreamwork is similar, but does not seek to conclude with definite meaning. The scientific study of dreams is called oneirology. Most modern dream study focuses on the neurophysiology of dreams and on proposing and testing hypotheses regarding dream function. It is not known where in the brain dreams originate, if there is a single origin for dreams or if multiple regions of the brain are involved, or what the purpose of dreaming is for the body (or brain or mind).

The mall is slated to contain a large indoor water park and ice rink. However, American Dream Miami has been stalled because of financial problems, Triple Five missing state-level construction deadlines, and substantial road improvements which will not be supported by the public following criticism from competing developers. The developer is also having land disputes with the Graham Companies, which proposed a mixed-use development on the site rather than a shopping center with theme parks. Most of the delays mirror what the New Jersey American Dream would originally be developed as (Meadowlands Xanadu), which was also stalled due to financial difficulties, land disputes, and rival mall companies.
