== Plot == 97b0ca98e8 Early in the season, Susan Lewis leaves for Phoenix to live with her sister and niece. Before she leaves, Greene realizes his feelings for her and races against time to declare them. He makes it to Union Station just as she is boarding the train. He stops her and declares his love, begging her to stay. Susan leaves anyway, but not before kissing Mark and declaring, as the train pulls out of the station, that she loves him too. In the aftermath of her departure, Mark begins to fall into depression, develops a meaner attitude, and starts sleeping with County General nurse Chuny Marquez, although they soon break up. Towards the end of the season, he is viciously attacked in the ER bathroom, and the thug is never caught. Although some suspicions arise over former patients and families, his beating was no more than a random act of violence. He becomes increasingly paranoid about his personal safety and distances himself from friends and family. 97b0ca98e8 == Overview == 97b0ca98e8 In the first major cast change in ER, the sixth season sees the addition of four new characters: Dr. Luka Kovač; nurse, later third-year medical student, Abby Lockhart; Dr. Cleo Finch; and Dr. Dave Malucci. Paul McCrane's Robert Romano is now billed as a series regular and Deb Chen from season one, now preferring to be called Dr. Jing-Mei Chen, returns. Physician assistant Jeanie Boulet leaves to care for her HIV-positive child. Lucy Knight and John Carter are attacked and stabbed by a psychotic patient. The ER staff works to save Carter and Lucy. Despite everyone's best efforts, they are unable to save Lucy who, despite making it through a gruelling surgery, suffers a massive blood clot and dies. 97b0ca98e8 Doug Ross (George Clooney) attends an interview for a new job at a private pediatric practice after he is told his contract at County General will not be renewed. The head of the practice (Luis Ávalos) offers him the job, and Ross accepts. Back at the ER, a 10-year-old victim of a hit-and-run, Molly Phillips (J. Madison Wright) is brought in with severe injuries. She is examined by Peter Benton (Eriq La Salle) and his interns John Carter (Noah Wyle) and Harper Tracy (Christine Elise). The medical staff stabilizes Molly, and new physician assistant Jeanie Boulet (Gloria Reuben) impresses ER chief David Morgenstern (William H. Macy) by identifying Molly's injuries from X-rays. 97b0ca98e8 Earned value management is a project management technique for measuring project performance and progress. It has the ability to combine measurements of the project management triangle: scope, time, and costs. 97b0ca98e8 Meanwhile, Doug and Carol draw closer, culminating... 97b0ca98e8 Ross returns to the ER for his... 97b0ca98e8 In an interview with the Orlando Sentinel, McCrane discussed the sequence in which Romano loses his arm in a helicopter accident during the ninth season premiere. McCrane explained: "In terms of my action, I stood up, continuing a motion of having picked up this chart that fell on the tarmac. I swung my arm up and was yanked back... 97b0ca98e8 == Development == 97b0ca98e8 Medical student Lucy Knight (Kellie Martin) begins her studies in the ER. As she spends time learning the layout and staff of the ER, we learn of Dr. Anna Del Amico's departure. Carter is reminded of himself as he watches Knight learn and practice. The two have a large number of conflicts before they find a way to work together. Elizabeth Corday begins her surgical internship all over again in order to keep her job at the hospital, and ends her relationship with fellow surgeon Peter Benton. Benton finds out that his son is hearing impaired, and he considers a cochlear implant. Eventually, he decides against it. Kerry Weaver applies for a full-time chief of emergency medicine post, but the post goes to an East Coast doctor, Amanda Lee. Dr. Lee soon develops a more-than-professional interest in Mark Greene with Lee being revealed to be a fraudulent psychopath who later leaves under cloudy circumstances. 97b0ca98e8 In a single integrated system, EVM is able to provide accurate forecasts of project performance problems, which is an important aspect of project management. 97b0ca98e8 Greene does a paramedic ride-along, and Doug Ross has at last settled down with Carol Hathaway... 97b0ca98e8

== Plot == 97b0ca98e8 == Plot == 97b0ca98e8 Doug Ross was raised by his mother, Sarah, after his father, Ray, abandoned their family. In Season 1, Ross revealed to a patient that he had a son, and he tells nurse Wendy Goldman that he doesn't know his son's name as he's never seen him. Not much else is known about Doug's past. 97b0ca98e8 Early EVM research showed that the areas of planning and control are significantly impacted by its use; and similarly, using the methodology improves both scope definition as well as the analysis of overall project performance. More recent research studies have shown that the principles of EVM are positive predictors of project success. The popularity of EVM has grown in recent years beyond government contracting, a sector in which its importance continues to rise (e.g. recent new DFARS rules), in part because EVM can also surface in and help substantiate contract disputes. 97b0ca98e8 == Plot == 97b0ca98e8

The earned income tax credit has been part of political debates in the United States over whether raising the minimum wage or

increasing EITC is a better idea. In a random survey of 568 members of the American Economic Association in 2011, roughly 60% of economists agreed (31.7%) or agreed with provisos (30.8%) that the earned income tax credit program should be expanded. In 2021, when the survey was done again, the percentage of economists that agreed to expanding the credit increased to 90%. 97b0ca98e8 Doug's estranged son was a large part of the reason that he became a pediatrician. In 2019, ER executive producer John Wells shared, "Part of the reason why he wanted to become a pediatrician and be around children and care for children is because of his guilt that he wasn't the person he wanted to be when he had a child as a young man. That was always meant to be part of who he was, but... 97b0ca98e8 Season four opens with the live episode "Ambush", performed twice (once for the East coast, once for the West coast). Dr. Morgenstern, head of the ER, has a heart attack, threatening his life. Weaver agrees to temporarily step in until he recovers. Unfortunately, when Morgenstern does come back, he cannot perform surgery as he used to because he now knows what it is like to be a patient. After a surgical accident takes a man's life, Morgenstern decides to permanently step down as head of the ER and he leaves the hospital. Some new characters are introduced. 97b0ca98e8 Romano was a recurring character during the fourth and fifth seasons of the series. He became a regular character during the sixth-season premiere.
