List of French inventions and discoveries This list presents selected examples. Royal patronage and the establishment of academic institutions under the monarchy helped early scientific inquiry. The Age of Enlightenment, with its emphasis on reason and empirical observation, aided this progress. The French Revolution caused periods of instability; however, its era saw developments such as the standardization of the metric system. Pioneering contributions include the work of Nicéphore Niépce and Louis Daguerre in photography, Clément Ader's early unsuccessful attempts at powered flight, foundational research in nuclear physics by Henri Becquerel and Marie Curie, and Louis Pasteur's work in microbiology and immunology. cinq ou six heures, je fus tout surpris de voir que la fiole étoit plus pleine qu'au moment de son immersion, quoiqu'elle le fût alors autant que ses bords Throughout its history, France has made numerous contributions to scientific and technological development

== Arts and entertainment == Oboe, or hautbois, in the mid-17th century France, probably by Jacques-Martin Hotteterre and his family or by the Philidor family. Variants of the oboe like the graïle, the bombard and the piston were later created in Languedoc... Voltaire was a versatile and prolific writer, producing works in almost every literary form, including plays, poems, novels, essays, histories, and even scientific expositions. He wrote more than 20,000 letters and 2,000 books and pamphlets. Voltaire was one of the first authors to become renowned and commercially successful internationally. He was an outspoken advocate of civil liberties and was at constant risk from the strict censorship laws of the Catholic French monarchy. His polemics witheringly satirized intolerance and religious dogma, as well as the French institutions of his day. His best-known work and magnum opus, *Candide*, is a novella that comments on, criticizes, and ridicules many events, thinkers and philosophies of his time, most...
