Extensive decorative tattooing has also been part of the work of performance artists such as tattooed ladies. 5d616f993f Having tried to kill Heracles ever since he was born, Hera induced a madness in him that made him kill his wife and children. In the series, the character's unorthodox diagnostic approaches, radical therapeutic motives, and stalwart rationality have resulted in much conflict between him and his colleagues. House is also often portrayed as lacking sympathy for his patients, a practice that allows him time to solve ethical enigmas. The character is partly based on Sherlock Holmes. A portion of the show's plot centers on House's habitual use of Vicodin to manage pain stemming from leg infarction involving his quadriceps muscle some years earlier, an injury that forces him to walk with a cane. This dependency is also one of the many parallels to Holmes, who is portrayed as being a habitual user of cocaine and other drugs. 5d616f993f Toney was an All-American as a junior and senior at Glenn High School... 5d616f993f (August 2006). 5d616f993f Hardin was born in 1853 near Bonham, Texas, to James Gibson "Gip" Hardin, a Methodist preacher and circuit rider, and Mary Elizabeth Dixson. Originally depicted as a supervillain and antihero, Akihiro later reforms himself as a superhero after relocating to Krakoa, making peace with his father and becoming a member of X-Factor and the Marauders, eventually earning the title of Fang for his heroism. After becoming bonded to the demon Bagra-ghul, Akihiro becomes the newest Hellverine. 5d616f993f The original album version of "Picture to Burn" contained the lyric, "That's fine; I'll tell mine you're gay", which was modified to "That's fine; You won't mind if I say", on the radio edit and subsequent versions. In the US, the single peaked at number 28 on the Billboard Hot 100 and number 3 on Hot Country Songs, and it was certified double platinum. Pudendal neuralgia refers to neuropathic pain along the course of the pudendal nerve and in its distribution. This term is often used interchangeably with pudendal nerve entrapment. However, it has been suggested that the presence of symptoms of pudendal neuralgia alone should not be used to diagnose pudendal nerve entrapment. That is because it is possible to have all the symptoms of pudendal nerve entrapment, as per the diagnostic criteria specified at Nantes in 2006, without actually having an entrapped pudendal nerve.
