== Colours == Skin care needs vary according to age, diseases, wounds, exposure to the sun, environmental extremes, and chemicals. Skin care products exist as regulated prescription drugs and as topical agents marketed as cosmetics but having no clinical proof of efficacy. A skin care physician is called a dermatologist. == History == Only a few colours are used in kumadori makeup; red, blue, brown and black. Whilst black is simply used to exaggerate features, such as eyebrows and the line of the mouth, the other colours are used to tell the audience about the character's nature. Skin care is at the interface of cosmetics and dermatology. Skin care differs from dermatology by its inclusion of non-physician professionals, such as estheticians and nursing staff. Skin care includes modifications of individual behavior and of environmental and working conditions. Skin care is applied during recovery from wound healing, radiation therapy, and the management of some medications. == General care == In 2015, a global survey by the International Society of Aesthetic Plastic Surgeons placed South Korea in the top ten of countries who had the highest rate of cosmetic surgeries. South Korea has been described in international media as a "plastic surgery nation", although scholars argue that this idea has been shaped by media narratives and may oversimplify...
