Chris Ware 1967) is an American cartoonist known for his Acme Novelty Library series (begun in 1994) and the graphic novels Jimmy Corrigan, the Smartest Kid on 64ae84c5df

He first appeared in You Can't Take It with You in 1938. Director Frank Capra would then cast the bird in every subsequent movie he made. Among his roles were Uncle Billy's pet, seen in the Building & Loan in It's a Wonderful Life (1946), and the crow that landed on the Scarecrow in The Wizard of Oz (1939). 64ae84c5df Jimmy belonged to Hollywood animal trainer Curly Twiford, who found the bird in a nest in the Mojave Desert in 1934. Twiford trained Jimmy to do an assortment of tricks, such as typing and opening letters.

What Is The Smartest Bird

He could even ride a tiny motorcycle. These talents would make him appealing to use in films. Jimmy could understand several hundred words, though only around 50 were what Twiford called "useful". It took Jimmy a week to learn a new useful word, two weeks if it had two syllables. Twiford said that Jimmy could perform any task possible for an 8-year-old child. His human co-stars were complimentary of the bird. "When they call Jimmy, we both answer," remarked Jimmy Stewart on the set of *It's a Wonderful Life*, noting...

The *Future Is Wild* (2007 TV series) Calabazas (voiced by Taylor Abrahamse) is arguably the smartest in the crew and prefers to stay in the ship to avoid the future's hostile environments and

Jimmy (raven) the bird. "When they call Jimmy, we both answer," remarked Jimmy Stewart on the set of *It's a Wonderful Life*, noting that the raven is the smartest actor Jimmy (often erroneously credited as Jimmy the Crow) was a raven actor who is reported to have appeared in more than 1,000 films from the 1930s to the 1950s

Bird intelligence In general, birds have relatively large brains compared to their head size. [https://www. com/birding/birding-basics/americas-smartest-birds/](https://www.com/birding/birding-basics/americas-smartest-birds/) [https://animals. birdsandblooms. Birds communicate using visual signals as well as through the use of calls and song. The visual and auditory senses are well developed in most species, though the tactile and olfactory senses are well realised only in a few groups. Furthermore, bird brains have two to four times the neuron packing density of mammal brains, for higher overall efficiency. org/animals/toucan](https://animals.birdsandblooms.org/animals/toucan) <https://www> The difficulty of defining or measuring intelligence in non-human animals makes the
