Just this evening, my HP Pavilion Windows 8 computer has decided that it won't load any sites except for wikipedia.org, commons.wikimedia.org, and various Google domains. I know it's not a case of "network's dead and computer's simply relying on caching", because it's returning normal results for gibberish searches (I can get https://www.google.com/?gws_rd=ssl#q=bfoubsg, for example), and I can view anything on Wikipedia; I've never seen Järveküla, Saare County before, for example. Can anyone suggest what to do? Here's what else I know: 3cb16f9506 (a) Wikidata is a wiki; but rather than being text-centric, it's data-centric, containing typed fields in a manner comparable to a relational database or linked data rather than textual data comparable to a traditional encyclopaedia. Most of the data in wikidata is harvested from various languages wikipedias' and from other datasets, but data can also be edited by hand. I am unaware of any process for checking manual edits. Every fact in wikipedia can be associated with a reference, but many facts (maybe most, I'm not sure of stats) are not backed up by a reference. Where references are present, most of them are to the various language wikipedias (which are not reliable sources, as per en.wiki's definition... 3cb16f9506 Link is not on the blacklist. 3cb16f9506

Wikidata (http://www.wikidata.org/) data is used in biographies and elsewhere (see Category:Templates using data from Wikidata for a complete list). It is my contention that wikidata is not a reliable source. My contention rests on two planks, either of which is enough to show wikidata is unreliable: (a) it's a publicly-editable wiki with no apparent quality control process (b) it has a history of bulk-incorporating and retaining unreliable data. 3cb16f9506 Link is not on the domainredlist. 3cb16f9506 Google Analytics ID: UA-20250234 - (Track - Report - reverseinternet.com • Meta: Track - Report) 3cb16f9506 Link is not on the monitor list. 3cb16f9506 173.236.238.13: Linksearch en (insource) - meta - de - fr - simple - wikt:en - wikt:fr • Spamcheck • blacklist hits • MER-C X-wiki • gs • Reports: Links on en - COIBot - COIBot-Local • Discussions: tracked - advanced - RSN • COIBot-Link, Local, & XWiki Reports - Wikipedia: en - fr - de • Google: search • meta • Domain: domaintools • AboutUs.com 3cb16f9506 Link is not on the whitelist. 3cb16f9506 Link is not on the Monitorlist. 3cb16f9506
