

High Protein Diet Plan

The first popular diet was "Banting", named after English undertaker William Banting. In his 1863 pamphlet, Letter on Corpulence, Addressed to the Public, he outlined the details of a particular low-carbohydrate, low-calorie diet that led to his own dramatic weight loss. One particular form of low-carbohydrate diet called the ketogenic diet was first established as a medical diet for treating epilepsy. It became a popular diet for weight loss through celebrity endorsement, but there is no evidence of any distinctive... Uses

Ketogenic diet The ketogenic diet is a high-fat, adequate-protein, low-carbohydrate dietary therapy that in conventional medicine is used mainly to treat hard-to-control The ketogenic diet is a high-fat, adequate-protein, low-carbohydrate dietary therapy that in conventional medicine is used mainly to treat hard-to-control (refractory) epilepsy in children. The diet forces the body to burn fats rather than carbohydrates

Carbohydrates in food are converted into glucose, which is then transported around the body and is important in fueling brain function. However, if only a little carbohydrate remains in the diet, the liver converts fat into fatty acids and ketone bodies, the latter passing into the brain and replacing glucose as an energy source. An elevated level of ketone bodies in the blood (a state called ketosis) eventually lowers the frequency of epileptic seizures. Around half of children and young people with epilepsy who have tried some form of this diet saw the number of seizures drop by at least half, and the effect persists after discontinuing the diet. Some evidence shows that adults with epilepsy may benefit from the diet and that a less strict regimen, such as a modified Atkins diet, is similarly effective. Side effects may include constipation, high cholesterol, growth slowing, acidosis, and kidney stones. The most agreed-upon recommendation is for the diet to be low in sugar and refined carbohydrates, while relatively high in dietary fiber, especially soluble fiber. Likewise, people with diabetes may be encouraged to reduce their intake of carbohydrates that have a high glycemic index (GI), although the ADA and Diabetes UK note that further evidence for this recommendation is needed. The DASH diet is based on NIH studies that examined three dietary plans and their results. None of the plans were vegetarian, but the DASH plan incorporated more fruits and vegetables... Description

Diet in diabetes g. , cardiovascular disease, kidney disease, obesity). A diabetic diet is a diet that is used by people with diabetes mellitus or high blood sugar to minimize symptoms and dangerous complications of long-term A diabetic diet is a diet that is used by people with diabetes mellitus or high blood sugar to minimize symptoms and dangerous complications of long-term elevations in blood sugar (e

Dieting), have been shown to be no more effective than one another. , sugar, bread, pasta) are limited, and replaced with foods containing a higher percentage of fat and protein (e Dieting is the practice of eating food in a regulated way to decrease, maintain, or increase body weight, or to prevent and treat diseases such as diabetes and obesity. Regardless, the outcome of a diet can vary widely depending on the individual. g. Foods high in carbohydrates (e. As weight loss depends on calorie intake, different kinds of calorie-reduced diets, such as those emphasising particular macronutrients (low-fat, low-carbohydrate, etc. As weight regain is common, diet success is best predicted by long-term adherence. diet

In 2018, F-Factor launched a line of all-natural fiber-rich products.

South Beach Diet It emphasizes eating food with a low glycemic index, and categorizes carbohydrates and fats as "good" or "bad". Like other fad diets, it may have elements which are generally recognized as sensible, but it promises benefits not backed by supporting evidence or sound science. Carbohydrate Diet, the plan was renamed the South Beach Diet after the South Beach neighborhood in Miami Beach near Agatston's practice. The diet plan was initially The South Beach Diet is a popular fad diet developed by Arthur Agatston and promoted in his bestselling 2003 book

Bland diets are often recommended following stomach or intestinal surgery, or for people with conditions such as ulcers, acid reflux (GERD), gastritis, heartburn, nausea, vomiting, diarrhea, gastroenteritis and gas. A bland diet allows the digestive tract to heal before introducing foods that are more difficult to digest. A bland diet is designed primarily to help patients recover from gastrointestinal conditions or other medical circumstances... Among guideline recommendations including the American Diabetes Association (ADA) and Diabetes UK, there is no consensus that one specific diet is better than others. This is due to a lack of long term high-quality studies on this subject. There is no good evidence that low-carbohydrate dieting in general confers any particular health benefits apart from weight loss, where low-carbohydrate diets achieve outcomes similar to other diets, as weight loss is mainly determined by calorie restriction and adherence. The Dukan diet is a high-protein, low-carbohydrate diet with four phases, each of which has specific rules.The four phases are named the attack phase, the cruise phase, the consolidation phase, and the stabilization phase.

Low-carbohydrate diet g. Foods high in carbohydrates (e. spinach, kale, chard, collards, and other fibrous vegetables). , sugar, bread, pasta) are limited, and replaced with foods containing a higher percentage of fat and protein (e. g. , sugar, bread, pasta) are limited Low-carbohydrate diets restrict carbohydrate consumption relative to the average diet. , meat, poultry, fish, shellfish, eggs, cheese, nuts, and seeds), as well as low carbohydrate foods (e. Low-carbohydrate diets restrict carbohydrate consumption relative to the average diet. g. Foods high in carbohydrates (e

There is a lack of standardization of how much carbohydrate low-carbohydrate diets must have, and this has complicated research. One definition, from the American Academy of Family Physicians, specifies low-carbohydrate diets as having less than 20% of calories from carbohydrates. The original therapeutic diet... In 2011, F-Factor foods began being served in restaurants. The diet became popular in the early 2000s, with Atkins' book becoming one of the top 50 best-selling books in history, and as many as 1 in 11 North American adults claiming to be following it. Atkins died in 2003 and in 2005 Atkins Nutritionals, Inc. filed for bankruptcy following substantial financial losses. == Technique == There is no strong evidence of the diet's effectiveness in achieving durable weight loss; it promotes unlimited consumption of protein and saturated fat, and may increase the risk of heart disease.

F-Factor (diet) It includes a diet plan, a standard food line, books, and other products. developed the plan based on dietary adjustments she initially made for herself and her clients. The diet consisted of high-fiber carbs and lean protein, which F-Factor is a high fiber diet plan created by Registered Dietitian Tanya Zuckerbrot. The diet focuses on consumption of lean proteins and high-fiber carbohydrates 63fb47e722

The first stage of the diet aims for rapid weight loss (8 to 13 lbs in two weeks). According to the UK's National Health Service (NHS), the severity of the first stage of the diet may result in the loss of some vitamins, minerals and fiber. The NHS reports that dietary restrictions during stage one may cause side effects including "bad breath... 63fb47e722

Atkins diet described as a low-carbohydrate, high-fat, high-protein fad diet. It promotes the consumption of meat, cheese, eggs and other high-fat foods such as butter, The Atkins diet is a low-carbohydrate fad diet devised by Robert Atkins in the 1970s, marketed with claims that carbohydrate restriction is crucial to weight loss and that the diet offered "a high calorie way to stay thin forever" 63fb47e722

Some guidelines recommend dieting to lose weight for people with weight-related health problems, but not for otherwise healthy people. One survey found that almost half of all American adults attempt to lose weight through dieting, including 66.7% of obese adults and 26.5% of normal weight or underweight adults. Dieters who are overweight (but not obese), who are normal... 63fb47e722

DASH diet ". S. The DASH diet is one of three healthy diets recommended in the 2015–20 U. -based National Heart, Lung, and Blood Institute, part of the National Institutes of Health (NIH), an agency of the United States Department of Health and Human Services. It includes meat, fish, poultry, nuts, and beans, and is limited in sugar-sweetened foods and beverages, red meat, and added fats. The DASH diet is one of three healthy diets recommended in the 2015–20 U. The American Heart Association (AHA) considers the DASH diet "specific and well-documented across age, sex and ethnically diverse groups. The DASH diet is rich in fruits, vegetables, whole grains, and low-fat dairy foods. In addition to its effect on blood pressure, it is designed to be a well-balanced approach to eating for the general public. Dietary Guidelines, which also include the Mediterranean diet and The Dietary Approaches to Stop Hypertension (DASH) diet is a diet to control hypertension promoted by the U. S. eating plan. S. DASH is recommended by the United States Department of Agriculture (USDA) as a healthy eating plan. Dietary Guidelines, which also include the Mediterranean diet and a vegetarian diet 63fb47e722

Bland diet It can also be bland in the sense of "lacking flavor", but it does not always have to be so. As of 2025, the BRAT diet is often A bland diet is a diet consisting of readily digestible foods that are generally soft, low in dietary fiber, cooked rather than raw, and not spicy. The BRAT diet consists of only bananas, rice, apple sauce, and toast. Non-irritating food can still be tasty, depending on preparation and individual preferences. typical protein serving while on a bland diet. Such a diet is called bland because it is intended to be soothing to the digestive tract and to minimize irritation of tissues. It is an eating plan that emphasizes foods that are easy to digest and absorb for the treatment of diarrhea or other gastrointestinal (GI) issues. It is commonly recommended for people recovering from surgery, diarrhea, gastroenteritis, or other conditions affecting the GI tract 63fb47e722

The F-Factor brand was created by New York dietitian Tanya Zuckerbrot, who developed the plan based on dietary adjustments she initially made for herself and her clients. The diet consisted of high-fiber carbs and lean protein, which became the base for The F-Factor Diet plan. In 2006, she published the book, The F-Factor Diet, which outlined the F-Factor plan. She would go on to expand her private practice in New York one year later. 63fb47e722 The diet has three stages and gradually increases the proportion of carbohydrate consumed as it progresses while simultaneously decreasing the proportions of fat and protein. It includes a number of recommended foods such as lean meats and vegetables and has a concept of "good" (mostly monounsaturated) fats. It makes no restriction on calorie intake, includes an exercise program, and is based around taking three main meals and two snacks per day. 63fb47e722 == History == 63fb47e722 For overweight and obese people with diabetes, the most important aspect of any diet is that it results in loss of body fat. Losing body fat has been proven to improve blood glucose control and lower insulin levels. 63fb47e722 == Effectiveness and risks == 63fb47e722 The diet was endorsed by Megyn Kelly in her 2016 autobiography, Settle for More, in which Kelly stated she used the diet after giving birth, in order to address weight gained during pregnancy. 63fb47e722

Dukan Diet The Dukan Diet is a high-protein low-carbohydrate fad diet devised by Pierre Dukan. The Dukan diet is a high-protein, low-carbohydrate diet with four The Dukan Diet is a high-protein low-carbohydrate fad diet devised by Pierre Dukan 63fb47e722
