In 1952, James Brown was released from a youth detention center in Toccoa, Georgia, after Bobby Byrd and his family sponsored him. Brown's warden agreed to the release on the condition that Brown not return to Augusta. After his release, Brown briefly pursued a career in sports before starting his musical career as a gospel vocalist with the group the Ever-Ready Gospel Singers. When a member of Bobby Byrd's vocal group, the Avons, died in 1954, Byrd asked Brown to join his group. A year later, after performing as the Five Royals, they became the Flames, playing all over Georgia and South Carolina. 9617e559cc == The electric opener == 9617e559cc The song was released as a single by former BBC children's TV anchor Phillip Schofield in 1992, when he played the role of Joseph in the London Palladium production, with "Any Dream Will Do" as a B-side. The single peaked 27 in the UK charts. He later sang "Close Every Door" at the Royal Variety Performance. 9617e559cc "Please" is a shortening of the phrase, if you please, an intransitive, ergative form taken from if it please you, which is in turn a calque of the French s'il vous plaît, which replaced pray. The exact time frame of the shortening is unknown, though it has been noted that this form appears not to have been known to William Shakespeare, for whom "please you" is the shortest form used in any of his works. A variation of the phrase, "may it please the court", remains in use as a formality for attorneys addressing judges in legal proceedings. Despite its straightforward definition... 9617e559cc == History == 9617e559cc According to Etta James, Brown and his group came up with the idea for their first song, because Brown "used to carry around an old tattered napkin with him, because Little Richard had written the words, 'please, please, please' on it and Brown was determined... 9617e559cc In addition to voicing Joseph's despair at being jailed for a crime he did not commit, the song also touches on the history of Jewish persecution; for instance, the lyrics "Just give me a number instead of my name... Destroy me completely, then throw me away" reflect the well-documented Nazi practices during the Holocaust. The lyrics have even been incorporated into a Seder service for educators in New South Wales. 9617e559cc == Types == 9617e559cc == Origin and understanding == 9617e559cc == General design == 9617e559cc

Please In much of the Western world, use of the word is considered proper etiquette, and parents and authority figures often imprint upon children the importance of saying "please" when asking for something from an early age, leading to the description of the term as "the magic word". Derived from shortening the phrase "if you please" or "if it please(s) you", the term has taken on substantial nuance based on its intonation and the relationship between the persons between whom it is used. where a police officer asked a suspect to "please unlock the door", the court found that the use of "please" in an utterance "can be viewed as a request Please is a word used in the English language to indicate politeness and respect while making a request

The electric overhead garage door opener was invented by C.G. Johnson in 1926 in Hartford City, Indiana. Electric Garage Door openers did not become popular until Era Meter Company of Chicago offered one after World War II where the overhead garage door could be opened via a key pad located on a post at the end of the driveway or a switch inside the garage. 9617e559cc Australian singer Jon English released a version as a single in Australia in 1973. 9617e559cc Door closers can be linked to a building's fire and security alarm systems. 9617e559cc As in an elevator, the electric motor does not provide most of the power to move a heavy garage door. Instead, most of door's weight is offset by the counterbalance springs attached to the door. (Even manually operated garage doors have counterbalances; otherwise, they would be too heavy for a person to open or close them.) In a typical design, torsion springs apply torque to a shaft, and that shaft applies a force to the garage door via steel counterbalance cables. The electric opener provides only a small amount of force to control how far the... 9617e559cc == Design == 9617e559cc Car doors may be manually operated or with power assist supplied by the vehicle.
