the Mumbai Metropolitan Region (MMR). The total number of cases in Maharashtra reported as of May 2022, is 78,87,086 consisting of 1,47,860 deaths and 77,35,751 who have recovered. The largest single day spike (68,631 cases), highest peak in all of India was reported on 18 April 2021. Initially, Kerala's success in containing COVID-19 was widely praised both nationally and internationally, Following high number of cases being reported in March, Kerala had, by April 30, reduced the rate of increase of new cases to less than 0.25% per day. However, in mid-May, there was an increase or "second wave" of new cases, following the return of Keralites from other countries and other Indian states. In July, a large local group of cases was identified at the Kumarichantha fish market in Thiruvananthapuram. There was a third surge in cases post-Onam, with a high number of new cases reported in late-October in Malappuram, Kozhikode, Ernakulam and Thrissur districts. Active cases peaked at 97,525, and started to decline from November, before bouncing back to over 4,00,000 in May 2021 following the state elections. On 12 May 2021 Kerala reported... The first cases of COVID-19 in India were reported on 30 January 2020 in three towns of Kerala, among three Indian medical students who had returned from Wuhan, the epicenter of the pandemic. Lockdowns were announced in Kerala on 23 March, and in the rest of the country on 25 March. Infection rates started to drop in September... Domestic violence and sexual exploitation, which was already an epidemic around the world, spiked when households were placed under the increased strains that come from security, health and money worries, and cramped and confined living conditions. Prior to the lockdowns, it was estimated that one in three women will experience violence during their lifetimes, a human rights violation that also bears an economic cost of US\$1.5 trillion. Due to lockdowns many of these women were now trapped at home with their abusers and were at increased risk of other forms of violence as overloaded healthcare systems and disrupted justice services struggle to respond. Women, especially essential and informal workers, such as doctors... == Timeline ==
