== Episode == This problem is known to be NP-hard. However, the computational complexity of determining the flip distance between convex polygons, a special case of this problem, is unknown. Computing the flip distance between convex polygon triangulations is also equivalent to rotation distance, the number of rotations required to transform one binary tree into another. Written and produced by Swift and Jack Antonoff, "Look What You Made Me Do" has an electronic production combining electropop, dance-pop, progressive pop, and synth-punk with elements of hip-hop, electroclash, industrial, and electro. It contains an interpolation of "I'm Too Sexy" (1991) by the English pop group Right Said Fred, whose members received songwriting credits as a result. The melody incorporates strings, plinking piano, and synthesizers, and the chorus consists of drumbeats and rhythmic chants. The lyrics are about the narrator's contempt for somebody who had wronged them. Many media publications interpreted the track to be a reference to the controversies that Swift faced, including the Kanye West feud. They released their first 7-inch in 2002 with tracks from their first ever studio LP ~ completed in 2000 with producer/guitarist Eric Gagnon of The El Caminos. The 7-inch featured "Ain't Coming Back", "B 52 Bomberboy", "Can't Get Me Down" and "Stone Cold" all of which were tracked, mixed and mastered by Gagnon, and was released on their own record label, Die Slaughterhaus.
