== Synopsis == dc44115fb7 First, philosophers of mind distinguish between mind-to-world (i.e., mind-to-fit-world) and world-to-mind (i.e., world-to-fit-mind) directions of fit. In the former, mental states such as beliefs are subject to updates in order to fit evidence provided by the world (the mind changes to fit the world, thus beliefs have a mind-to-world direction of fit). In the latter, mental states such as desires motivate the agent to change the world in order to fit the desired state in the mind (the world changes to fit the mind, thus desires have a world-to-mind direction of fit). dc44115fb7 == Summary == dc44115fb7
